

SUMMARY

We have been serving our local business community with various printing services for over 25 years. With the retirement from the original owner, in 2019, Design Brand Print Services, Inc was born! It was a very easy transition, as the current owners have been working under the original owner for so long, that there was already a well established relationship with the current customers. Since our official establishment, we have expanded and offered more printed services, and have welcomed more businesses to join our family!

BUSINESS SUMMARY

Design Brand Print Services, Inc is a certified minority/women owned small business with a physical location in Astoria, Queens. We engage with various businesses, no matter the size, for any of their printing needs. Our goal is to build strong long-term continuous relationships with our customers by providing a one stop shop solution, without sacrificing excellent service or quality for their printing needs.

EXPERTISE

Each of the our upper management team has been in their field for 20+ years, specializing in their respective field through schooling, hands on training, and years of experience. All the upper management team started off as entry level workers. Throughout the years, they have been promoted, and now train and oversee oncoming staff. We believe in promoting within, so that there is a solid foundation of experience when it comes to teaching oncoming staff.
